TS02 Plus – Manual Total Stations

Description

The TS02plus is the perfect manual total station for standard measuring tasks where moderate accuracy is necessary.

Features

- **Quality, Precision & Reliability :** FlexLine plus total stations are built to the highest Swiss Technology quality standards. Users benefit from high precision and reliable instruments in order to fulfil their tasks with the requested accuracy.

- **Best-in-class EDM Technology :** With PinPoint Electronic Distance Measurement (EDM), TS02plus delivers the optimal balance in Range, Accuracy, Reliability, Beam visibility, Laser dot size and Measurement time. With a wide variety of EDM options, the TS02plus is able to measure to both prisms and direct objects without the need for a reflector.

Specifications

- **Intuitive Onboard Software :** The TS02plus is delivered with the intuitive onboard software, FlexField plus. Guided workflows and easy to understand graphics and icons ensure a low learning curve when working in the field. Graphics and icons make the interpretation of measurement values or text no longer necessary, guaranteeing faster and simple operation when you need it.

- **Best-in-class Service & Support :** FlexLine plus manual total stations are supported by superior after sales service and support. With the Active Customer Care program and my World customer portal, users have access to latest software updates, service and support as well as the mySecurity theft protection system. With mySecurity activated, the locking mechanism ensures the device is disabled and can no longer be used.
