

## LS15 & 10 – Digital Levels

### Description

The LS15 and LS10 digital levels alleviate demanding levelling tasks on any site. Automated functions and industry-leading 0.2mm accuracy allow users to easily demonstrate their measuring skills while effectively completing any project.

From autofocus to touchscreen displays with clean layouts, the entire measurement process is made more efficient with LS15 and LS10 digital levels. Common levelling errors, like misreading the staff or transcription mistakes, are worries of the past. Providing the most reliable results from immediately understandable line flows with image-supported colour visuals, these levelling solutions make the professional's daily tasks a more enjoyable experience.
