

NA 300 – Automatic Levels

Description

The NA300 Series of automatic (optical) levels has been developed for professionals who are looking for the highest quality results day by day. With the many obstructions and uneven surfaces on construction and building sites, the levels NA300 levels rise to the occasion and ensure the straightest and safest construction possible.

Features

- Distinctive design and proven technology, inside and out.
- Protected shape for increased ergonomic handling while ensuring the highest quality results.
- Simple handling for quick and accurate measurements.
