

Abrasive Cutter- Automatic

Description

Abrasive Cutter-Automatic is a bench-top cutter featuring manual cutting action in 3 directions or automated cutting in 1 direction. This gives the user the maximum versatility to section a wide variety of sample materials, sizes and geometries. It is engineered with innovative capabilities to be used in both production support and laboratory environments. The Abrasive Cutter now includes an accompanying digital display to track X-axis travel improving precision, consistency and repeatability in serial sectioning applications.

Features

- Superior cutting torque powers through difficult cuts.
- Brake stop allows for rapid sample access.
- Large viewing window and lighting provides excellent visibility.
- An innovative basket catches parts after sectioning .
- Wash down hose allows for quick cleaning.
- Both automatic and manual cutting modes available.
- Serial cutting with optional, movable X-table,
