

Ceramic Edge Profiles / Tile Trims

Description

Ceramic Edge Profiles / Tile trim provides high-quality finish to the tile edges and gives a stylish outlook. Used at the junctions of tile to tile or tile to non-tile covered surfaces. Protects external corners and ensures a smooth finish. Tile trims helps to form a joint gap between the trim and the tile.

Level difference profiles are available in different heights and suitable in different material such as aluminum, brass, and stainless steel and PVC.

Variants

- Aluminum Ceramic Edge Profiles
- Stainless Steel Ceramic Edge Profiles
- PVC Ceramic Edge Profiles
- Brass Ceramic Edge Profiles
