

Weld Beam Attachment

Description

Material : Carbon steel

Finish : Plain or Hot-Dip Galvanized

Service : Recommended for attachment to bottom of beams, especially where loads are considerable and rod sizes are large.

Features

- Will accommodate very heavy loads and rod sizes through 3-1/2".
- Can be installed so as to provide for either flexibility or for vertical adjustment.
- Versatility affords economical stocking and erection.
- Beam size need not be considered.

Size(s) : 3/8" through 3-1/2"

Technical Data

Maximum Temperature

Plain 750° F, Galvanized 450° F
