

Grade Lasers

Description

Increase productivity and reduce costs with the Leica Rugby 880 and 870 construction lasers, highly reliable and accurate in grade applications. Rugby 880 and 870 fully-automatic grade lasers deliver accurate performance in the harshest site conditions, certified by the ISO standard for accuracy and the highest IP rating in the market.

Benefits

- **Reliability anytime** : Assuring mistake-free application, saving you expensive re-work costs, the fully-automatic Rugby 880 and 870 single and dual grade lasers deliver high and stable laser accuracy.
- **Increased productivity and application flexibility** : Intuitive interface and large display – Grade setup has never been easier. Save time on preparation and setup with quick and hassle-free dial-in grades. Innovative Automated Calibration capability – Save costs by calibrating the laser on-the-spot without the need to bring it to a specialist.
- **Lowest cost of ownership** : Leica Geosystems offers unmatched warranty concept for Grade Lasers.
