

2 – Pce Bronze Ball Valve

Description

2-Piece, Standard Port, Bronze Ball Valves are used in commercial and industrial applications for a full range of liquids and gases. It features a blowout proof pressure retaining stem. The standard port orifice ensures minimal pressure drop, End Connections can be threaded or Solder end..

Features

- Chrome plated brass ball is wiped clean during each operation of the valve
- Minimal pressure drop due to large ports
- Blowout proof, pressure retaining stem
- High cycle life reinforced PTFE stem packing seal and thrust washer
- Vinyl insulator on heavy duty, zinc-plated, carbon steel handles
- Quarter-turn open or close operation
- Low operating torque
- Adjustable stem packing gland
- Each valve factory tested

Technical Data

Temperature Range	0°F – 450°F (-18°C – 232°C) @ 50psi (3.4 bars)
Pressure Range	For 1/4 to 3 in. – 600psi WOG (non-shock); 150psi WSP; For 4 in. – 400psi WOG (non-shock); 125psi WSP.
