

Metering Station-Stainless Steel

Features

- Wafer pattern
- Fits between BS EN1092 flanges PN16
- Flow characteristic confirmed to BS 7350
- Fixed orifice with $\pm 5\%$ flow measurement accuracy
- Can be close coupled to a double regulating valve
- Supplied with 2 extensions and test points

Materials List

No.	PART	MATERIAL
1	Body	304 Stainless Steel
2	Extension	304 Stainless Steel
3	Pressure Test Point	Brass

Technical Data

Max Pressure	16 Bar
Working Temperature	-10°C to +120°C
