Indoor Wireless Solutions

Description

➢ Comprehensive security for both the wired and wireless networks through a single security platform

➢ Seamless inter-office mobility ensures secure, uninterrupted network access while roaming from one access point to another

➢ Enforced IPSec VPN connectivity to the WLAN for all wireless traffic guarantees the highest level of security

➢ Convenient guest Internet access provides easy creation of guest Internet accounts without compromising network integrity

➢ Granular access control allows network administrators to apply firewall rules and security policies to all wireless and wired traffic

➢ Dual band wireless monitoring detects rogue access points on both the 2.4 and 5 GHz spectrums
