

Metroline Analog Clocks

Description

An attractive range of clocks in aluminum lightweight housing, conceived in modular design, for impulse, radio-controlled, quartz, and self-setting MOBALine or IRIG-B clocks. The most up-to-date technology guarantees reliable functioning and maximum accuracy. Available as single- and double-sided clocks.

Features

- Single-sided: available as wall-mounted type
- Double-sided: universal fixing possibilities by means of a simple 90° rotation of the supporting middle piece. Choice of wall, ceiling, socket, or pole mounting.
