

## Multipurpose / GRMS Controllers

### Description

The Dynalite range of multipurpose controllers allows customization of output types via different output module units. When using multipurpose controllers, a specific type of control can be chosen for each circuit: relay, leading-edge dimmer, trailing-edge dimmer, driver control, controller with out-of-the-box functionality, fan control, and blind/screen control. In any combination, multiple load types can be controlled from a single device. This simplifies installation and prevents wasted capacity of circuits that are not required.

### Product Type

- GRMS Controllers
