

## Shackle Insulators

### Description

- **Standard :** IEC 60383
- **Material :** Brown Glazed Porcelain
- **Min. Mechanical Failing Load :** 14 kN
- **Power Frequency Flashover voltage (Dry) :** 20 kV
- **Power Frequency Flashover voltage (Wet) :** 09 kV

### Specification

- ✓ Suitable for stringing 100-A2-19 size AAA conductor

### Application

- ✓ Used on sharp curves, end poles and in section poles
- ✓ Designed to support low voltages
- ✓ Mounted horizontally or vertically
- ✓ Directly fixed to the pole with bolt or to the cross arm
