

Hangers

Description

The standard type Hangers are ideal for suspending stationary, non-insulated pipe lines, including CPVC pipes, in fire sprinkler systems. A knurled insert nut helps simplify vertical adjustments and flared edges on the base (1/2" to 2" sizes) help protect pipes from coming into contact with any sharp edges of the hanger.

Features

- ✓ Size range from 3/4" to 8"
- ✓ Made of carbon steel
- ✓ Galvanised, other finish available upon request
- ✓ Easy height adjustment due to knurled nut
- ✓ Complies with Manufacturers Standardization Society MSS-SP-58 and MSS-SP-69 (Type 10)
- ✓ Approved by FM and UL

Field of Application

- ✓ Attachment of sprinkler lines
