

Threshold Profiles

Description

Threshold profiles are manufactured from Aluminum or PVC in order to fill the gap between carpets, vinyl and parquet flooring. Thicker coating is available upon request. Laminated profiles with different wood designs exist for parquet applications.

Our standard colour for PVC profiles are white, beige or gray.

Variants

- Threshold Profile with Invisible Screw
- Decoluxe Laminated Threshold Profiles
- Pre-drilled Threshold Profiles
- Grooved Threshold Profiles
- Self Adhesive Threshold Profiles
- Magnetic Threshold Profiles
