

Volumetric Water Meters

Description

- Available in DN 15, DN 20 and manifold versions
- Rated to PN 16
- Compliant with :
 - MID approval 2004/22/EC
 - EN 14154:2007
 - OIML R49:2006
 - ISO 4064:2005
- Registers the lowest flow rates, thanks to its unique piston measuring chamber
- Ensures optimum legibility under all conditions of use
- Operates quietly
- Unrivalled accuracy
- Extensive measuring range
- Limited pressure drop
- Can be equipped with an HRI sensor
- Copper-glass register as an option
